PRICE LIST UPON REQUEST

LeapHome_Urban

Il sistema LeapHome_Urban, grazie alla sua versatilità, può essere applicato in molteplici contesti garantendo adattabilità nell'organizzazione spaziale interna e flessibilità nel design delle facciate.

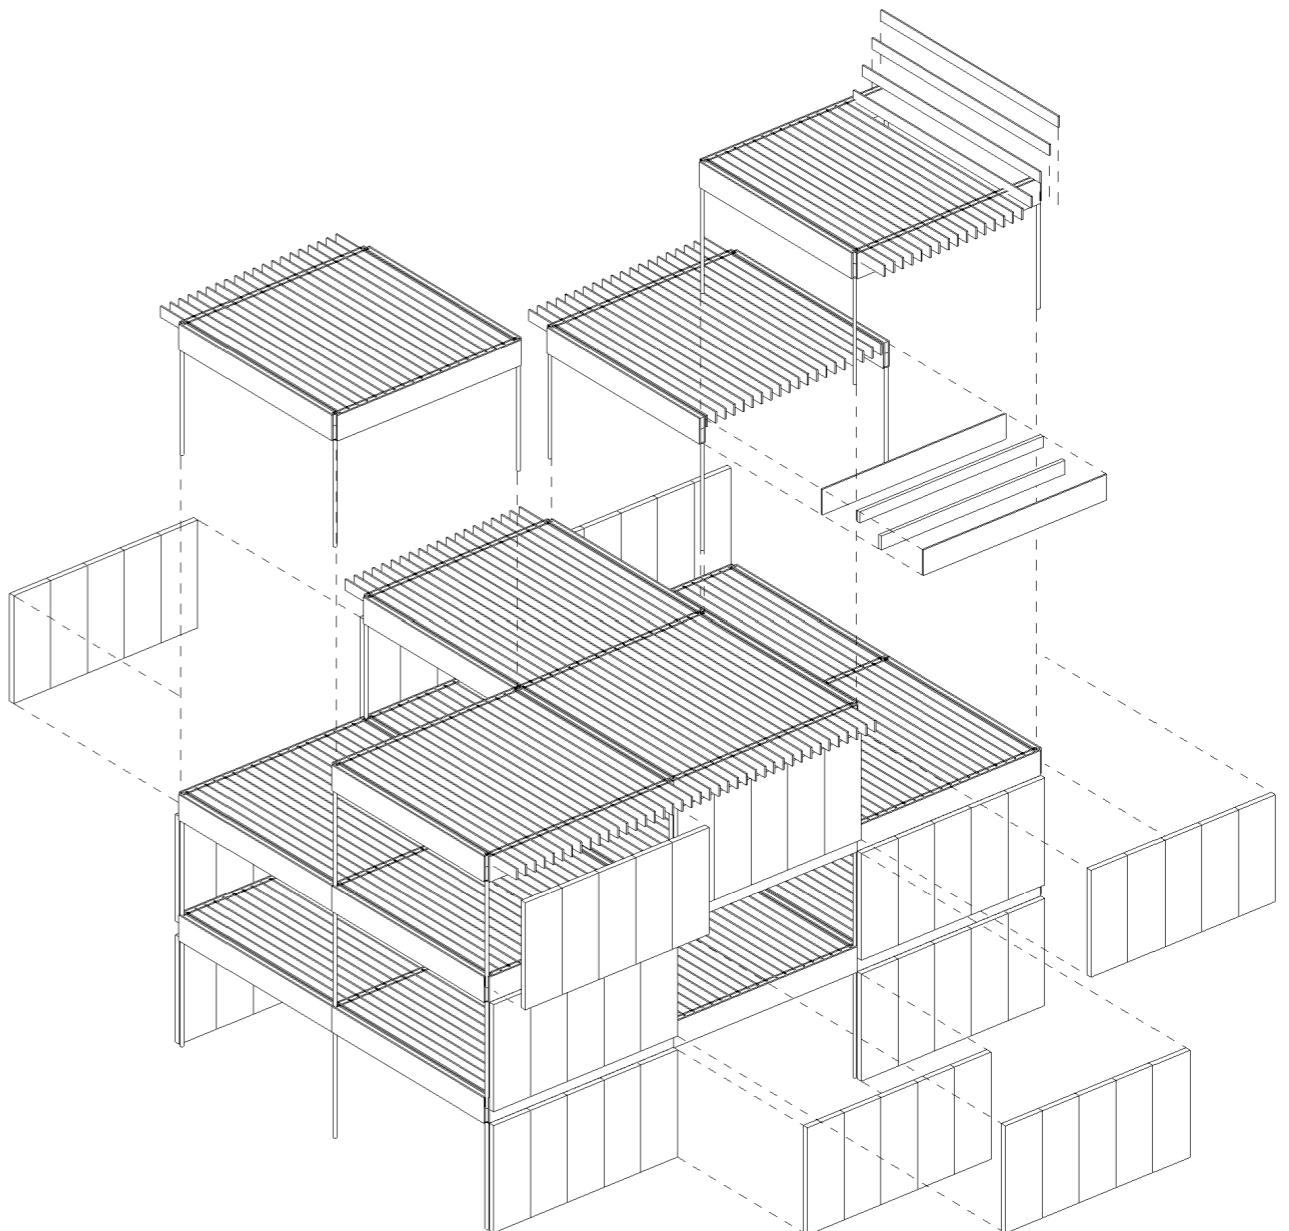

In questa appendice, il sistema LeapHome_Urban è stato utilizzato per generare case a schiera da inserire in un potenziale contesto urbano.

I layout riportati nelle seguenti pagine, rappresentano solo alcuni esempi di configurazione interna degli spazi

With a great versatility, the LeapHome_Urban system can be applied to a number of contexts, providing adaptability in organising the internal spaces and flexibility in the facade design.

In this appendix, LeapHome_Urban has been utilised to generate Townhouses to be potentially located in urban plots.

The following plan layouts only show a number of examples of internal space configurations.
